July 2011

Journey Productions was founded in 1979 to provide quality DJ entertainment systems for special events of all types. Our music selection of over 5,000 songs ranges from big band music, 50's - 90's, top 40, classic rock, country and R & B. We come to your event prepared to MC your special activities and play audience participation songs such as the chicken dance and the cha – cha slide. The DJ sound and lighting systems are custom designed for your event ranging from a basic sound and lighting system to a dance party system complete with laser lights and ground fog.

Today, Journey Productions is, also, your complete event service and supply company. Whether you need an LCD multimedia projector, white wedding chairs, a tent or convention pipe and drape, we are here to serve you. We invite you to contact us when you need anything in the special event industry. We pride ourselves on taking care of your needs.

Please find our rental list and references attached. Feel free to call on us today for rates and availability. We are the company that not only brings back musical memories, but will help make your event a notable one.

Sincerely,

Patrick Reynolds
Owner
